

## C. Doyle and Breck Win From Treanor and Moore

Rain played havoc with the schedule in the Middle Atlantic championship tennis tournament yesterday afternoon and as a consequence the program is quite a ways behind schedule and the officials of the Columbia Country Club, on whose courts the event is being played, are anxious to have as many matches as possible played off today in the hope of catching up.

Between showers a few matches in the doubles were played, but nothing at all was done in the singles. In order to accommodate some of the visiting teams, three matches were played on concrete courts, and in order to get these in it was necessary to requisition the two asphalt courts at Chevy Chase, which the committee put at the tournament's disposal.

Connie Doyle and H. C. Breck beat Paul J. Treanor and J. Ballard Moore in the best match of the day when they met in the third round. This was done in straight sets, 6-4, 6-3, and 6-2. Breck's work was the feature of the match, as he played a brilliant game and really outshone his better-known partner. Both Treanor and Moore played their usual good game, but after the first set, which was a duce one, they were outclassed, although the games were much closer than the score would indicate.

Burton and Candor and Howard and McVay were very evenly matched, and it was a struggle to the end of the match, which was a duce one, before the former, who are more experienced players, were able to get the decision. Summary:

## COLUMBIA A. C. WINS THE CLARENDON MEET

Captures First Honors in Virginia Games by One Point—Technical Is Second.

HOW THE POINTS WERE DIVIDED BY THE CLUBS

Columbia Athletic Club.....	21
Technical High School.....	20
Unattached.....	20
Baltimore Athletic Association.....	9
Carroll Institute.....	7
George Washington University.....	3
Central High School.....	1

The citizens of Alexandria County were treated to some close and exciting competition in the open events at the first annual outdoor field and track meet held in conjunction with the big athletic carnival of the Alexandria County Athletic Association at Clarendon (Va.) Baseball Park yesterday.

The track was extra heavy, due to the recent rains, but remarkable good time was made considering the handicap under which the athletes worked. Just at the conclusion of the open high jump a heavy rainstorm fell, which made the track a sea of mud and compelled the calling off of the closed events for county athletes.

The Columbia Athletic Club and the team from Technical High School had a great duel in dividing the points, the former winning by a margin of one tally, registering twenty-one to the Manual Trainers' twenty. The athletes running unattached gathered the same number of points as Technical, while Horn, the only entry from the Baltimore Athletic Association, placed his team in fourth place with nine points.

Jack Keenan, team of Jimmy Mulligan's Catholic University dash men, proved to be the individual star. Keenan ran unattached and tallied ten points, scoring first position in the 40-yard dash and the 220 Summary.

50 yards open—Won by Horn, of the Baltimore Athletic Association; second, Darr, of Columbia Athletic Club; third, Farrell, of Columbia Athletic Club; time, 2:24.4.

40 yards open—Won by Keenan, unattached; second, Horn, of Baltimore Athletic Association; third, McNamara, Technical H. S.; time, 0:57.5.

50 yards open—Darr, Darr, of Columbia Athletic Club; time, 2:24.4.

100 yards open—Won by Kirby, of Technical High School; second, Davis, of Columbia Athletic Club; third, Malone, of Carroll Institute; time, 1:51.3.

150 yards open—Won by Kirby, of Technical High School; second, Davis, of Columbia Athletic Club; third, Malone, of Carroll Institute; time, 1:51.3.

200 yards open—Won by Kirby, of Technical High School; second, Davis, of Columbia Athletic Club; third, Malone, of Carroll Institute; time, 1:51.3.

300 yards open—Won by Kirby, of Technical High School; second, Davis, of Columbia Athletic Club; third, Malone, of Carroll Institute; time, 1:51.3.

## DARIO RESTA WINS BIG AUTOMOBILE RACE

Speedway, Indianapolis, Ind., May 30.—Driving at all times a consistent, conservative race, Dario Resta, in a French Peugeot swept home the winner here this afternoon in the annual Memorial Day sweepstakes. The Italian took the lead after the first fifty miles. Time and again he was challenged, but each time he declined and continued to pursue the even tenor of his way.

Wilbur D'Alene, driving an American-made Duesenberg car, finished second after a thrilling battle with Ralph Mulford in another Peugeot. Resta's time was 3:36:10.42. Resta's average for the 300 miles was 53.36 miles an hour, six miles slower than time made last year by Ralph De Palma. Ralph Mulford finished third after driving one of the most desperate dare-devil races ever seen on the local course.

**Tigers Buy Hamilton.**  
Detroit, Mich., May 30.—The purchase of Pitcher Earl Hamilton, of the St. Louis Americans, by Detroit was confirmed by Manager Jennings yesterday.

## CHICAGO GRAIN MARKET.

Chicago, May 30.—The latter men on the Board of Trade are generally to be seen in the wheat market either personally or by representatives as now enclaves instead of participants. These speculators may take a "fix" occasionally, but generally speaking they can see little or nothing to make commodities of large size. They have been defeated time after time and they feel that until there is a radical change in the matter of sentiment favorable to the bulls the bears will continue in control for a time at least. James H. Rankin is trading in wheat on an exceptionally small scale. The same may be said of James A. Patton and other big traders.

The large men seem to have ample ammunition on hand wherever it is needed. They are now talking of being too much in the belt and of the probable replanting of large tracts in consequence. These who have been on the bull side of the market with now and then a short rest are to be found buying the grain.

There has been no exact demand for oats for some little time, and for this reason that market has declined from all of the advances established. Foreigners are looking largely to Canadian oats for their wants, and of these they have bought quite a quantity lately.

The provision market is again in favor of the bears. The largest part of the demand in the wheat market is for hogs as well as for hog products. They agree that with a decline in prices there will be an improved trade all around. The sales of hogs and hams and lard have been somewhat smaller on foreign account, and this has been against the feeling.
